## EDUCATION

### M.Sc in Information Technology

Charotar University of Science and Technology  
(CHARUSAT)

07/2024 - Present

Gujarat

### B.Sc in Computer Applications & Information Technology

N.V. Patel Science College

07/2021 - 07/2024

Gujarat

## WORK EXPERIENCE

### MERN Stack Intern

CreArt Solutions

05/2025 - 05/2025

Ahmedabad

Achievements/Tasks

- Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Designed secure RESTful APIs for user authentication and data handling.
- Applied Git for version control and collaborative development.

### Software Developer

Patrixel

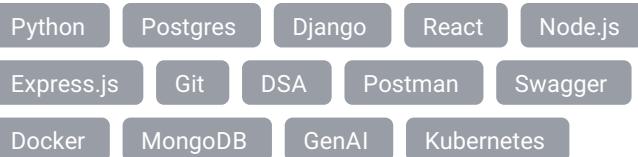

07/2025 - Present

Remote

Achievements/Tasks

- **Tech Stack:** React.js, Python (Django), PostgreSQL, WhatsApp Cloud API.
- Developed a full-stack CRM platform to help small businesses manage customer interactions through QR-based check-ins and automated WhatsApp follow-ups. The system provides dashboards for business owners and admins with analytics, loyalty features, and subscription management.
- Built RESTful APIs in Django to handle user authentication, role management, and customer data.
- Designed and implemented PostgreSQL database schema with optimized relationships for users, visits, and loyalty tracking.
- Developed a responsive React.js dashboard for admins and business owners using React Context for state management.
- Integrated WhatsApp Cloud API for automated follow-up and summary notifications.
- Implemented QR code generation for business-specific customer tracking.

## SKILLS

## PERSONAL PROJECTS

### Inventory\_management (01/2025 - 04/2025)

- Built an inventory management system with HTML, CSS, JavaScript, Python, Django, and PostgreSQL. Integrated Google Cloud APIs to enable real-time bill emailing. Deployed application on AWS for cloud-based access and scalability.
- [https://github.com/Dhruv8404/Inventory\\_management\\_website](https://github.com/Dhruv8404/Inventory_management_website)

### Stock\_market Website (06/2025 - Present)

- Technologies: Python, Django, React.js.
- Developed a web-based stock monitoring system using the MVC architecture, displaying real-time Indian stock market data through API integration. Built with Django (Python) for backend logic and Bootstrap for a responsive user interface.
- [https://github.com/Dhruv8404/Stock\\_market](https://github.com/Dhruv8404/Stock_market)

### HomeDecor Website (08/2025 - 10/2025)

- Technologies: React, Node.js, Express.js, MongoDB.
- User authentication (JWT and Google OAuth), product catalog with category-based browsing, shopping cart and watchlist functionality
- [https://github.com/Dhruv8404/Home\\_Decor](https://github.com/Dhruv8404/Home_Decor)

### Food CRM (10/2025 - Present)

- Technologies : React, Next.js, Postgres, Python, Django.
- A full-stack web application built with React/Next.js frontend and Django REST API backend, featuring a comprehensive restaurant management solution with customer ordering, staff administration, and real-time order tracking.
- <https://github.com/Dhruv8404/food-crm>

## CERTIFICATES

Full Stack Web Development using Python | iNeuron

Master in Data Structures & Algorithms | iNeuron

## LANGUAGES

Hindi

Full Professional Proficiency

Gujarati

Full Professional Proficiency

English

Limited Working Proficiency
